

TRACER 9 GT+

Redefining expectations: The new TRACER 9 GT+

With best-in-class technology including Y-AMT shifting, adaptive lighting and intelligent braking system with Vehicle Hold Control, the TRACER 9 GT+ is the most advanced production Yamaha motorcycle to date. Your tech-laden companion to take on the roads of life.

Powered by Yamaha's award-winning CP3 engine, the TRACER 9 GT+ delivers the best of all worlds with its lively performance and unique character. Utilising the new Y-AMT transmission and a whole host of other cutting-edge electronics, the TRACER 9 GT+ provides the most immersive and adaptive sports touring experience yet, switching from laid back and relaxing to fun and exhilarating at the whim of the rider.

- World-first Matrix LED headlight system
- Y-AMT: next-generation shifting
- Radar Adaptive Cruise Control and Blind Spot Detection
- 7" TFT dashboard with integrated Garmin navigation
- Adjustable semi-active electronic suspension
- Intelligent braking system with Vehicle Hold Control
- Electrically adjustable windscreen
- Smart key technology with central locking
- Low maintenance endurance chain
- Customisable ride modes
- Tyre pressure monitoring system as standard

Yamaha's sporting heritage runs throughout TRACER 9 GT+, with the Deltabox frame and KYB semi-active suspension combining to create a motorcycle without compromise when you want to push hard on your favourite road. With its integrated riding modes, TRACER 9 GT+ adapts to its environment, with its Matrix LED headlight system giving new levels of illumination when riding at night.

Redefining expectations: The new TRACER 9 GT+

Offering the perfect blend of sports and touring, TRACER 9 GT+ is the ideal companion to your journey. Debuting new technology to enhance your ride, Yamaha's ultimate sports tourer sets new standards for the middleweight class. Equipped with an all-new adaptive headlight and Yamaha's Y-AMT transmission, TRACER 9 GT+ is a technological tour-de-force.

Built on Yamaha's award-winning CP3 platform, TRACER 9 GT+ exudes character from every component. Famed for its outstanding torque and acceleration characteristics, the 890cc triple delivers a thrilling ride, while the high-end Deltabox chassis features sophisticated electronic suspension to deliver the new levels of comfort and control.

Standard equipment on the TRACER 9 GT+ includes radar-controlled adaptive cruise control, brake assist, Vehicle Hold Control and Yamaha's innovative Y-AMT transmission, which allows riders to switch between automatic and manual shifting at the press of a button. TRACER 9 GT+ transforms from 'sports' to 'touring' in a way other motorcycles can only dream of, making it the perfect companion with which to take on the roads of life.

All-new Matrix LED headlight

In a world first in the motorcycle sector, the adaptive Matrix LED headlight provides illumination like never before. Linked to a camera built into the fairing, the system detects surrounding traffic conditions and automatically controls individual LEDs within the matrix to deliver a shaped beam of light to maintain optimal illumination.

A new era of shifting with Y-AMT

Experience a new way of riding with the choice of fully automatic (AT) or manual (MT) shifting via a finger-operated see-saw switch. Invigorating when you want, easy when you need, Y-AMT works in perfect harmony with the cutting-edge Yamaha Ride Control (YRC) electronic features to elevate the riding experience and deliver the perfect engine and transmission characteristics to suit the riding conditions and their own personal preferences.

Radar equipped with Adaptive Cruise Control and Blind Spot Detection

Working in conjunction with the Y-AMT and KADS suspension, the radar controlled cruise control reduces fatigue by maintaining the correct speed gear and distance to vehicle in front when active. Radar also facilitates blind spot detection, which flashes a warning in the mirror when vehicle is detected in the rider's blind spot.

7" TFT dashboard with fully integrated Garmin navigation

The 7" TFT incorporates three themes and comes with Garmin Motorize connectivity to provide integrated navigation, while calls, messages and music can be received through the Yamaha MyRide App and controlled using the five-way joystick on the left hand switch cube. A dedicated integrated storage includes a USB-A outlet for charging on the go.

Adjustable semi-active electronic suspension

The KYB's KADS (KYB Actimatic Damper System) electronic suspension is the most advanced system found on any Yamaha production motorcycle. Governed by the six-axis IMU and ECU, the adjustable units are linked to the YRC mode and dynamically adjust damping to deliver an optimal riding experience in a variety of load and road conditions.

Intelligent braking system with Vehicle Hold Control

The TRACER 9 GT+'s Unified Brake System incorporates a hydraulic unit to automatically distribute braking force to both wheels, adjusting the brake bias to optimise stopping power and controllability of the machine. In conjunction, the Vehicle Hold Control intuitively applies rear brake pressure when stopped, to allow seamless take-offs when on an incline or slope.

Engine

Engine type	4-stroke; Liquid-cooled; DOHC; 4-valves; 3-cylinder
Displacement	890cc
Bore x stroke	78 x 62.1 mm
Compression ratio	11,5 : 1
Lubrication system	Wet sump
Clutch type	Wet; Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Fuel system	Fuel Injection
Maximum power	87.5 kW (119 PS) @ 10,000 rpm
Maximum torque	93 Nm (9.5 kg-m) @ 7,000 rpm
Fuel consumption	5 L/100 km
CO2 emission	116 g / km

Chassis

Frame	Diamond
Front suspension system	Telescopic fork
Front travel	130mm
Rear suspension system	(Link type suspension); Swingarm
Rear travel	131 mm
Front brake	Hydraulic dual disc brake, Ø 298 mm
Rear brake	Hydraulic single disc brake, Ø 267 mm
Front tyre	120/70ZR17M/C (58W) Tubeless
Rear tyre	180/55ZR17M/C (73W) Tubeless
Caster angle	24°25'
Trail	106 mm

Dimensions

Overall length	2,175 mm
Overall width	900 mm
Overall height	1.440 mm - 1.530 mm
Seat height	845 mm - 860 mm
Wheel base	1.500 mm
Minimum ground clearance	135 mm
Wet weight (including full oil and fuel tank)	232 kg
Fuel tank capacity	19 L
Oil tank capacity	3.5 L

TRACER 9 GT+

Screen & Connectivity

Adaptive Cruise Control	Yes
